Attn: Honorable Judge Robert D. Drain

Ref:

Delphi Corp Case # 05-44481 filed October 8, 2005

Document # 14705 to Cancel OPEB (Health and Life Insurance Benefits) for all Retirees

Dear Judge Drain:

This letter is to express my concerns with Document #14705 filed by Delphi Corporation on February 4, 2009 asking the court to cancel health insurance and life insurance benefits (OPEB) for retirees of Delphi Corporation.

Please note that this letter is an OBJECTION to that document and file it as a motion to object to document #14705.

For those of us retirees who were traveling and returned home to a FedEx envelope with notice of the motion, we have been given an extremely short window to respond to 31 pages of legal language to which we could develop and voice our objections. This document was filed with no previous warning to any of the current employees and retirees of Delphi Corporation and was only made known to us via FedEx letter at our home February 8, 2009. The communication to us was dated February 5, 2009.

Many of the most recent retirees of Delphi were retired **BY** the company and **NOT** by the choice of the employee. They were given no decision to make, just told they would be retiring on a specific date. They had little time to prepare for retirement, and little time to adjust to a significantly reduced income before they were hit with this latest development (loss of health care and life insurance) which will cause financial hardship for every retiree. It will have huge impacts not only on the retirees and soon-to-retire, but also every community where retirees live.

With the current state of the economy, retirees who had saved for retirement in their Stock Savings Plans, have lost 40 – 60 % of their savings. As you know, the cost of living has increased significantly in the last two years based upon rising energy costs alone. This coupled with the loss of health care benefits, retiree health reimbursement accounts, Medicare Part B special benefit and retiree life insurance would have a crippling effect on the lives of every retiree of Delphi Corporation.

It is my belief that there are other ways to restructure the company and still retain health care, retiree health reimbursement accounts, Medicare Part B special benefit and retiree life insurance for retirees. Health care benefits are currently scheduled to stop at the age of 65 for all retirees and therefore is a decreasing cost to the company as each pre-65 retiree reaches that milestone.

Please know that each of the 15,000 + retirees and soon-to-retire, who will be negatively impacted by this action, will be looking to you for your consideration when making the decision concerning Document #14705 dated February 4, 2009.

We ask you to REJECT this motion.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Robert Flower", with a long, sweeping horizontal line extending to the right.
